The only annual series to capture the most important scholarship in culture and psychology—and the first to showcase researchers describing their own programs.

Series Editors

MICHELE J. GELFAND, University of Maryland, College Park
CHI-YUE CHIU, Nanyang Business School, Nanyang Technological University, Singapore
YING-YI HONG, Nanyang Business School, Nanyang Technological University, Singapore

“The publication of *Advances in Culture and Psychology* is of historic importance. [It] is sure to become an ongoing canonical vehicle for the revival of psychological research which is both comparative and sensitive to cultural realities. Here the aim of research in culture and psychology is to document and explain differences in what people want, think, know, feel, value (and hence do) by virtue of growing up in a particular cultural group. It is the study of human diversity in emotional functioning, self organization, moral evaluation, social cognition and pathways of development. *Advances in Culture and Psychology* will be a lively and welcoming home to a multiplicity of such aims.”

—from the Foreword by Richard A. Shweder, William Claude Reavis Distinguished Service Professor, Department of Comparative Human Development, University of Chicago

“It is wonderful to see the next generation of cross-cultural and cultural psychologists undertake a series that will include not only psychology, but also many other disciplines. Just as the *Advances in Experimental Social Psychology* series shaped social psychology, this new series promises to shape our understanding of the relationship between culture and psychology.”

—Harry C. Triandis, Professor Emeritus, University of Illinois, Champaign-Urbana

Culture and psychology is a rapidly growing field that has experienced a boom in publication over the last decade. Exciting developments have emerged in the relationship of culture to cognitive processes, human development, psychopathology, social behavior, organizational behavior, neuroscience, language, marketing, and other topics. In recognition of this exponential growth, Advances in Culture and Psychology was launched in 2010 to develop an intellectual home for culture and psychology research programs and foster bridges and connections among cultural scholars across the disciplines.

Authored by internationally renowned scholars, articles in these highly selective volumes reflect the theoretical, methodological, and epistemological diversity in the study of culture and psychology. Advances in Culture and Psychology is a required resource for research programs and faculty throughout the psychology community.

AUTHORS

Volume 1: Michael Tomasello, David Matsuzawa, Hyi-Sung Hwang, Mark Schaller, Damian R. Murray, Fred Rothbaum, Gilda Morelli, Natalie Rusk, Gün R Semin, Toshio Yamagishi, Sharon Shavitt, Carlos J. Torelli, and Hila Riemer

Volume 2: Debi Roberson, Nalini Ambady, Patricia M. Greenfield, A. Timothy Church, Marcia S. Katigbak, Robert J. Sternberg, Andrzej Nowak, Wouter de Raad, and Wojciech Borkowski

Volume 5: Soon Ang, Jordan Axt, Christophe Boesch, Yay-hyung Cho, Shelby Cooley, Laura Elenbaas, Aline Hitti, Melanie Killen, Shinobu Kitayama, Shigehiro Oishi, Jiyong Park, Thomas Rockstuhl, Joanna Schug, Fons J. R. van de Vijver, Linn Van Dyne, Masaki Yuki
